

https://calendar.google.com/calendar/ical/aldersgate-church.org_b8hgj8nkb7e2cggq29rvtfutmg%40group.calendar.google.com/public/basic.ics

Copy the calendar URL above

Tap the Copy URL button to copy the .ics link to your clipboard.

2 Open Google Calendar on desktop

Go to calendar.google.com — this only works on a desktop browser, not the mobile app.

3 Find "Other calendars"

In the left sidebar, look for Other calendars and click the + button next to it.

4 Choose "From URL"

Select From URL from the dropdown menu.

5 Paste the URL and add the calendar

Paste the copied URL into the field and click Add calendar. It will appear in your sidebar.

Google typically refreshes subscribed calendars every 12–24 hours. Changes from the source may not appear immediately.
